WEIGHTS AND MEASURES

THE MEASURING INSTRUMENTS (TAXIMETERS) REGULATIONS 2006

The above regulations came into force on the 30th October 2006 and relates to meters used by taxis.

The regulations refers to the markings on the equipment that will be fitted to the vehicle.

Meters fitted to vehicle prior to the above date do not apply or transferred to a new vehicle after this date.

Part 1, Paragraph 3 refers to this.

Part 2, paragraph 4.

Requirements for placing on the market and putting into use

No person will put on the market or into use without the correct markings.

Part 2, Paragraph 12.

Marking and identification requirements

The manufactures shall fix the CE markings and the M markings to the instruments and a identification number.

All markings shall be 5mm high.

Retailers who fit meters to taxis will need to check meters supplied to them by manufactures have the correct markings.
