

# Tendring District Council

## Equality and Diversity Impact Assessment

# Background

## What is this tool for?

This tool will help you to assess the impact of existing or new strategies, policies, projects, contracts or decisions on residents & staff. It will help you to deliver excellent services, by making sure that they reflect the needs of all members of the community & workforce.

## How do I use the tool?

This tool is easy to use & you do not need expert knowledge to complete it. It asks you to make judgements based on evidence. The tool uses a system of red flags to give you an indication of whether or not your responses are identifying potential issues. Getting a red flag does not necessarily indicate a problem, but it does mean that your assessment is highlighting issues or gaps in data that may require further investigation or action.

## What should be equality impact assessed?

You only need to equality impact assess strategies, policies, projects, contracts or decisions that are **relevant** to equality. If you are not sure whether your activity is relevant to equality, take the 'relevance test'.

### The relevance test

Use the quick guide opposite to decide whether or not your strategy, policy, project, contract or decision related to equality:

### Relevant

- The strategy, policy, project contract or decision will impact on 'people' (residents, staff, or people who work in or visit the area)
- It may benefit some people or communities & not others (community cohesion)

### Not Sure

- The service is a support function or administrative
- There is no obvious impact on 'people' but the strategy, policy, project contract or decision is of major scale &/or significance to the Council's activities
- Insufficient evidence

### Not relevant

- No discernable impact on people.
- The service is a support function or administrative

If you are not sure whether your strategy, project or decision is relevant to equality, ask your Equality Service Champion in the first instance, or Amanda Cobb, the [Community Operations Manager](#) for advice, Tel: 01255 686360.

## SECTION 1 – FAST TRACK EQUALITY IMPACT ASSESSMENT

This section is used to undertake a fast track Equality Impact Assessment which is designed to identify whether there are any potential equality issues which would require any further investigation or actions to be taken.

GENERAL INFORMATION	
<b>Name of strategy, policy, project, contract or decision:</b>	Tendring District Core Strategy
<b>What is the overall purpose of the strategy, policy, project, contract or decision?</b>	The Core Strategy sets out the community's vision for change in Tendring over the next 15 years. It sets out how job growth and housing targets will be met; ensures that the environment of the district will be protected; and provides policies for development control to use in the determination of planning applications.

**MEASURING OUTCOMES** – The Council is working to achieve outcomes which provide services which do not inadvertently exclude or disadvantage any diverse groups. To ensure that this objective is achieved we need to consider the information that we are going to use to measure the outcomes and ensure that we are collecting appropriate information to enable a judgement to be made.

1.4 How do you (or how do you intend to) monitor the impact of the strategy, policy, project, contract or decision?  
*(Please tick all that apply)*

- Performance indicators or targets
  - User satisfaction
  - Uptake
  - Consultation/Surveys or involvement
  - Complaints
  - Workforce monitoring data
  - External verification
  - Other *(Please state)*
- The Annual Monitoring Report and through the Sustainability Appraisal process
- None

1.5 Do you (or do you intend to) collect this data (1.4) specifically in relation to any of the following diverse groups?

If **Yes** – tick the boxes of the relevant diverse group  
If **No** – continue to 1.6

- Age
- Gender/Transgender
- Religion & belief
- Disability
- Race
- Sexual orientation
- Other *(Please state)*

**ANALYSING PERFORMANCE DATA** – Once the data that is to be used to measure the outcome has been defined, the information that it provides needs to be assessed to identify whether it excludes or disadvantages any diverse groups

1.6 Consider the impact of the strategy, policy, project, contract or decision has already achieved, measured by the monitoring data you collect.  
Is the same impact being achieved for diverse groups as is being achieved across the whole population or workforce?

- Yes
  - No 
  - Not applicable
  - Insufficient evidence to enable a judgement to be made 
- Please state your evidence for this, including full documents titles and dates of publication for audit purposes. Where it has been identified that a different impact has been achieved consider whether this difference is reasonable, or further action is required to address the issue.*

1.7 Is the uptake of any services, benefits or opportunities associated with the strategy, policy, project, contract or decision generally representative of diverse groups?

- Yes
  - No 
  - Insufficient evidence to enable a judgement to be made 
- Please state you evidence for this, including full documents titles and dates of publication for audit purposes. Where it has been identified that the uptake is not representative of the diverse group consider whether this difference is reasonable, or further action is required to address the*

		issue.

**CHECKING DELIVERY ARRANGEMENTS** – The mechanism used to deliver the strategy, policy, project, contract or decision needs to consider whether it excludes or discriminates against any diverse groups.

1.8 You now need to check the accessibility of your delivery arrangements against the requirements below. Click on the hyperlinks for more detailed guidance about the minimum criteria you should meet.

*If assessing a proposed strategy, policy, project, contract or decision, indicate 'Yes' if you anticipate compliance by launch of implementation.*

**FUTURE IMPACT** – The future impact of the strategy, policy, project, contract or decision needs to consider whether it excludes or disadvantages any diverse groups.

1.10	<p>Think about what your strategy, policy, project, contract or decision is aiming to achieve over the long term &amp; the ways in which It will seek to do this. In doing so, is it likely to inadvertently exclude or disadvantage any <a href="#">diverse groups</a> (see appendix 1)?</p> <p><i>This is your opportunity to take a step back &amp; consider the practical implementation of your strategy, policy, project, contract or decision in the future. As well as checking that people from diverse groups will not be inadvertently excluded from or disadvantaged by any proposed activities, it is also an opportunity to think about how you can maximise your impact, reach as many people as possible &amp; really make a difference to the lives of everyone in Tendring regardless of their background or circumstances.</i></p> <p> <input checked="" type="checkbox"/> No  <input type="checkbox"/> Yes   <input type="checkbox"/> Insufficient evidence  </p> <p><i>Please state any potential issues identified.</i></p>

<b>MAKING A JUDGEMENT – CONCLUSIONS AND NEXT STEPS</b>			
1.13	<input checked="" type="checkbox"/> There are no inequalities identified or none that cannot be easily addressed or legally justified <input type="checkbox"/> There is insufficient evidence to make a robust judgement <input type="checkbox"/> Inequalities have been identified which cannot be easily addressed	  	<p>No further action required - implement any actions identified.</p> <p>Additional evidence gathering required. Complete Section 2 – Additional Evidence Gathering</p> <p>Action planning required – complete Section 3 and implement any actions identified.</p>

## SECTION 2 – ADDITIONAL EVIDENCE GATHERING

Where the Fast Track Equality Assessment indicated that **complex issues** or **inequalities** were identified which could not be easily addressed, or you had **insufficient evidence** to make a judgement, you need to undertake additional evidence gathering & action planning process. This is described below:

(a) Gather & analyse relevant additional evidence (which may include engagement with diverse groups), to address gaps in your knowledge, enhance understanding of the issues & inform options for addressing these. Additional evidence is likely to include any or all of the following:

### Data gathering

- Demographic profiles of Tendring
- Data about the physical environment, e.g. housing market, workforce, employment, education & learning provision, transport, spatial planning & public spaces
- Results of local needs analysis
- Results of staff surveys
- Research reports on the needs/experiences of diverse groups
- National best practice/guidance
- Benchmarking with other organisations

### Consultation & involvement

- Existing consultation findings that may provide insight into the issues
- New, specially commissioned engagement with diverse groups
- Expert views of stakeholders/employers organisations representing diverse groups
- Advice from experts or national organisations
- Specialist staff/in-house expertise.

(b) For advice on evidence gathering or engagement with diverse groups please contact your Service Equality Champion. Discuss any proposed consultation with your service champion to ensure it is coordinated with related exercises across the Council as a whole.

(c) Use your evidence gathering, analysis & engagement with diverse groups to develop options for addressing inequalities or unmet need, consulting with relevant management teams/Members/strategic groups/partners where necessary to confirm proposed actions & resource issues.

(d) When options for addressing any issues are agreed, if these cannot be implemented immediately integrate them into the appropriate service plan/strategic plan/multi-agency strategy, so that it is clear how they will be delivered, when they will be delivered, by whom, & how this will be monitored.

(e) Identify how the continuing implementation & impact of the strategy, policy, project, contract or decision on diverse groups in Tendring will be monitored.

(f) Following completion of the above, please complete the questions 2.1 - 2.6:

ADDITIONAL EVIDENCE GATHERING RESULTS	
2.1	Outline the additional information you have gathered. <i>(Include full document titles and dates of publications for Audit purposes. Where applicable please also state the nature of any issues identified).</i>
2.2	Where consultation has taken place, who did you consult with and how?
2.3	<p>Analyse the additional information that has been gathered and whilst considering the questions asked in Section 1 (1.6-1.10) consider whether any of the evidence indicates that the strategy, policy, project, contract or decision is likely to inadvertently exclude or disadvantage any <a href="#">diverse groups</a> (see appendix 1).</p> <p> <input type="checkbox"/> Yes   <input type="checkbox"/> No  <input type="checkbox"/> N/a         </p> <p><i>Please document the thought process that has been followed in forming the judgement.</i></p>
2.4	<p>If the additional evidence has highlighted any potential equality issues or red flags, can these be easily addressed?</p> <p> <input type="checkbox"/> Yes  <input type="checkbox"/> No   <input type="checkbox"/> N/a         </p> <p>If yes, please describe your proposed action/s, intended impact, monitoring arrangements, implementation date and lead officer:</p>
2.5	<p>Are any issues or red flags highlighted by the additional evidence gathered <b>health-related</b>?</p> <p><i>Some equality groups are disproportionately affected by health inequalities. Tendring District Council, Essex County Council and NHS North East Essex are working jointly to address this.</i></p> <p> <input type="checkbox"/> Yes*  <input type="checkbox"/> No  <input type="checkbox"/> N/a         </p> <p>*If Yes, please email this completed assessment to <a href="mailto:ckitcher@tendringdc.gov.uk">ckitcher@tendringdc.gov.uk</a></p>

## RE-ASSESSMENT AFTER ADDITIONAL EVIDENCE HAS BEEN COLLECTED AND CONSIDERED

2.6

The additional evidence gathered confirmed that there are no inequalities identified that cannot be easily addressed or legally justified

No further action required - implement any actions identified.

The additional evidence gathered has confirmed that there are Inequalities which cannot be easily addressed

Action planning required – complete Section 3 and implement any actions identified.

## SECTION 3 –EQUALITY AND DIVERSITY ACTION PLAN

Detailed below are the proposed action(s) identified to address the inequality identified in the strategy, policy, project, contract or decision.

<u>Details of the inequality identified</u>	<u>Proposed action to address the inequality</u>	<u>What are the cost/resource implications of the proposal</u>	<u>Timescale for implementation</u>	<u>Responsible Officer</u>	<u>Process for monitoring the completion of this action</u>
1. Gypsy provision in the district is lower than the RSS target.	Gypsy sites will be safeguarded in the Site Allocations DPD and so this ethnic group will not be discriminated against.	Selecting appropriate sites for gypsies may require a study identifying feasible sites, which will likely need to be carried out by external consultants.	Study has been commissioned	Malcolm Inkster	An Annual Monitoring Report is submitted to the Government Office for the East of England every December and this will show progress on the provision of gypsy sites.
2. Planning can be a complicated process and those without previous experience or knowledge of the planning system may struggle to understand the document and/or process.	Lack of understanding can be addressed through clear explanation on the website of background information to the Core Strategy and in the document itself; and also through one-to-one explanation at local exhibitions. Making the document easy to understand and providing appropriate background information to aid understanding and	Minimal	Already implemented	Malcolm Inkster	Review of EqIA

	providing non-technical summaries is likely to have a major positive impact and can be done at relatively little cost to the Council.				
3. New build could affect elderly residents or people with disabilities in terms of access.	The Core Strategy promotes sustainable travel links and includes a transport hierarchy which gives top priority to those with mobility impairments. Additionally, major sites will require a percentage of dwellings to be built to lifetime homes standard.	N/A	N/A	Malcolm Inkster	Review of EqlA
4. The promotion of the night time economy may affect women in terms of fears over safety.	The Core Strategy promotes high quality design that incorporates measures to design out crime.	New/ improved CCTV may be required in the town centres.	Ongoing	Malcolm Inkster	Review of EqlA
5. Some ethnic groups may find that their traditional building styles may not fit into the established character of an area.	The Core Strategy promotes Village Design Statements, which will provide a way for all people to get involved in design issues.	Officer time to engage with community groups.	Ongoing.
