## Equality and Diversity Impact Assessment

# Background

## What is this tool for?

This tool will help you to assess the impact of existing or new strategies, policies, projects, contracts or decisions on residents & staff. It will help you to deliver excellent services, by making sure that they reflect the needs of all members of the community & workforce.

## How do I use the tool?

This tool is easy to use & you do not need expert knowledge to complete it. It asks you to make judgements based on evidence. The tool uses a system of red flags to give you an indication of whether or not your responses are identifying potential issues. Getting a red flag does not necessarily indicate a problem, but it does mean that your assessment is highlighting issues or gaps in data that may require further investigation or action.

## What should be equality impact assessed?

You only need to equality impact assess strategies, policies, projects, contracts or decisions that are **relevant** to equality. If you are not sure whether your activity is relevant to equality, take the 'relevance test'.

### The relevance test

Use the quick guide opposite to decide whether or not your strategy, policy, project, contract or decision related to equality:

### Relevant

- The strategy, policy, project contract or decision will impact on 'people' (residents, staff, or people who work in or visit the area)
- It may benefit some people or communities & not others (community cohesion)

### Not Sure

- The service is a support function or administrative
- There is no obvious impact on 'people' but the strategy, policy, project contract or decision is of major scale &/or significance to the Council's activities
- Insufficient evidence

### Not relevant

- No discernable impact on people.
- The service is a support function or administrative

If you are not sure whether your strategy, project or decision is relevant to equality, ask your Equality Service Champion in the first instance, or Amanda Cobb, the [Community Operations Manager](#) for advice, Tel: 01255 686360.

**ANALYSING PERFORMANCE DATA** – Once the data that is to be used to measure the outcome has been defined, the information that it provides needs to be assessed to identify whether it excludes or disadvantages any diverse groups

1.6	<p>Consider the impact of the strategy, policy, project, contract or decision has already achieved, measured by the monitoring data you collect.</p> <p>Is the same impact being achieved for diverse groups as is being achieved across the whole population or workforce?</p>	<p><input checked="" type="checkbox"/> Yes</p> <p><input type="checkbox"/> No </p> <p><input type="checkbox"/> Not applicable</p> <p><input type="checkbox"/> Insufficient evidence to enable a judgement to be made </p> <p><i>Please state your evidence for this, including full documents titles and dates of publication for audit purposes. Where it has been identified that a different impact has been achieved consider whether this difference is reasonable, or further action is required to address the issue.</i></p> <p>The revised tenancy conditions will affect all existing secure tenants equally and the operation of an introductory tenancy scheme means that all those, who would currently be offered a secure tenancy will be made an introductory tenant and subject to this probationary period.</p> <p>Housing's main IT system contains fields to permit and flag up any</p>

(c) Use your evidence gathering, analysis & engagement with diverse groups to develop options for addressing inequalities or unmet need, consulting with relevant management teams/Members/strategic groups/partners where necessary to confirm proposed actions & resource issues.

(d) When options for addressing any issues are agreed, if these cannot be implemented immediately integrate them into the appropriate service plan/strategic plan/multi-agency strategy, so that it is clear how they will be delivered, when they will be delivered, by whom, & how this will be monitored.

(e) Identify how the continuing implementation & impact of the strategy, policy, project, contract or decision on diverse groups in Tendring will be monitored.

(f) Following completion of the above, please complete the questions 2.1 - 2.6:
