109 of the above page views were internal. I am unable to provide information as to the origin of the page views e.g. members of the public, journalists etc

- 3. How much it costs to publish the data**

There is no cost other than the officer time requires to run a report from an internal system and upload this to the website (approximately 1 hour's work)

4. Any other analysis or background data held by the authority e.g. reports on the costs, use or operation of the spending data initiative.

We do not have any other analysis or background data
