Tendring District Local Plan Pre-Submission Focussed Changes

Minor Changes to the Written Statement

January 2014

Important Notice

This document is the Tendring District Local Plan: Pre-Submission Focussed Changes (2014) setting out 'Minor Changes to the Written Statement'. It contains minor amendments to policies and proposals from the Tendring District Local Plan: Proposed Submission Draft (2012) aimed at resolving issues that were raised during public consultation on that document and ensuring the plan is up to date and meets the requirements of latest national planning policy. It is important to address these issues before the Local Plan is submitted to the Secretary of State to be examined by a Planning Inspector, hence the term 'pre-submission focussed changes'.

This is one of three documents setting out the Council's proposed changes: 'Major Changes to the Written Statement'; 'Minor Changes to the Written Statement'; and 'Changes to the Policies Maps'.

It is the Council's intention that the policies and proposals in the Local Plan, as amended by these pre-submission focussed changes, will eventually supersede, in full, all of the policies and proposals in the Tendring District Local Plan that was formally adopted in December 2007.

These changes are the subject of six weeks public consultation ending on Monday 17th February 2014 and the Council is inviting any interested parties to make representations in accordance with Regulation 20 of the Town and Country Planning (Local Planning) (England) Regulations 2012.

You can send us your comments of support, or objection, in a number of ways:

- If you have access to the internet, the Council's website www.tendringdc.gov.uk allows you to submit your comments on line;
- You can send in your comments on the standard comment form that is available on request and the various 'deposit points' where this document is available for public view; and
- We are happy to accept your comments in the form of an e-mail or a letter, but it is important that you make it clear which of the proposed changes you are commenting on, particularly if you are objecting, and what changes you would like to be made.

The closing date for submitting your comments is 5:00pm on Monday 17th February 2014. Any submissions received after that time will not be considered.

If you intend to make your representation by post, please send it to the following address:

**The Planning Policy Manager
Tendring District Council
Council Offices

Clacton-on-Sea
Essex CO16 9AJ**

Following public consultation, it is the Council's intention to submit the Local Plan (along with relevant supporting documentation and any representations received) to the Secretary of State in accordance with Regulation 22 of the Town and Country Planning (Local Planning) (England) Regulations 2012. There will then be an independent examination where an appointed Planning Inspector will consider the soundness of the Local Plan having regard to all of the representations received.

Making Your Comments

If you wish to **support** any of the proposed changes, please do make representations stating this. Representations of support will help the Council demonstrate to an independent planning inspector that the Council has taken on board the views of local people and businesses expressed during previous consultation exercises. Representations of support will also help the Council to minimise the risk of the Local Plan getting rejected by the inspector or getting delayed - which could leave the district vulnerable to unwanted development and powerless to influence detailed elements of design and layout.

If you wish to **object** to any of the proposed changes, your representations will need to explain to both the Council and an independent planning inspector that the plan, as amended, would fail to meet one or more of the government's 'tests of soundness'. The tests of soundness say that Local Plans must be:

- **“Positively Prepared”** – the plan should be prepared based on a strategy which seeks to meet objectively assessed development and infrastructure requirements, including unmet requirements from neighbouring authorities where it is reasonable to do so and consistent with achieving sustainable development;
- **“Justified”** – the plan should be the most appropriate strategy, when considered against the reasonable alternatives, based on proportionate evidence;
- **“Effective”** – the plan should be deliverable over its plan period and based on effective joint working on cross-boundary strategic priorities; and
- **“Consistent with national policy”** – the plan should enable the delivery of sustainable development in accordance with the policies in the National Planning Policy Framework

In making your comments, please be sure to indicate which policy or proposal it is you are objecting to and what changes you think should be made to the plan.

Further information and contacts

Information on the Local Plan, including background technical documents and the sustainability appraisal and are available to view and download on the planning pages of the Council's website www.tendringdc.gov.uk.

If you have any questions regarding the Local Plan, please feel free to contact a member of the Council's Planning Policy Team by telephone on 01255 686177 or by e-mail on planning.policy@tendringdc.gov.uk. Understanding and using this Document

On Friday 9th November 2012, the Council published the Tendring District Local Plan: Proposed Submission Draft for just over 8 weeks public consultation which ended on Monday 7th January 2013. During the consultation period, the Council received approximately 800 representations in response to the draft Local Plan containing a range of comments on various policies and proposals both in objection and in support. It also received some preliminary advice from the Planning Inspectorate highlighting certain elements of the Local Plan that would need to be reviewed in order to meet the government's tests of soundness. Having considered all of these comments and the Planning Inspectorate's advice, the Council proposes to make a number of 'Pre-Submission Focussed Changes' to the draft Local Plan before it is submitted to the Secretary of State to be formally 'examined' by an Inspector.

The Focussed Changes are now the subject of public consultation in their own right to allow interested parties the opportunity to make any final comments before the draft Local Plan is amended and thereafter submitted to the Secretary of State. The Focussed Changes are contained within three documents:

- Major Changes to the Written Statement;
- **Minor Changes to the Written Statement;** and
- Changes to the Policies Maps.

The 'Minor Changes to the Written Statement' are contained in this document and include changes to the text often designed to address relatively minor objections, make minor factual corrections and to generally ensure the document is consistent, accurate and correct throughout.

The 'Major Changes to the Written Statement' are contained in a separate document and include changes to certain policies and supporting paragraphs which are significant in their nature and which represent a fundamental change to the way in which policies and proposals will be interpreted. The major changes include alterations to the time-frame of the Local Plan and the strategies for economic development and housing growth, the deletion of certain policies, the inclusion of new policies and notable changes to the wording of both district-wide and site-specific policies.

The 'Changes to the Policies Maps' are also contained in a separate document and include all proposed changes to the Policies Maps such as the introduction or deletion of development sites, the amendment of settlement boundaries, changes to policy designations and other necessary corrections and amendments. These are presented in the form of 'current and proposed' diagrams to enable readers to see clearly what the changes are.

For each proposed change, the documents contain the following information:

- **Change reference:** This is a unique code for each of the proposed changes (e.g. MAJ1.1 denoting the first major change to Chapter 1, MIN4.3 denoting the third minor change to Chapter 4 or PMI18.1 denoting the first change to Policies Map Inset 18 for Bradfield and Bradfield Heath).
- **Type of change:** A broad indication of why type of change is being suggested, e.g. the deletion of text, a significant change to policy wording or the inclusion of new policy.
- **Proposed Change:** Changes to the policies maps are shown as 'before and after' diagrams.
- **Reason for change:** A brief account of why the change is proposed. In the majority of cases it will be to address objections received during the last consultation exercise, to reflect the latest available information or to ensure consistency with other proposed changes to the plan.
- **Necessary consequential changes:** This lists all of the paragraphs, policies or policies maps that need to change as a consequence of the main change being proposed so that readers can understand the wider implications of each change.

Minor Changes to Chapter 1: Introduction

Change reference	Type of change	Section	Proposed change (additions shown as highlighted and deletions shown as struck through)	Reason for change	Necessary consequential changes
MIN1.1	Minor consequential amendment to supporting text.	Paragraph 1.5 on page 12.	1.5 This document identifies some of the main characteristics of our district and the difficult challenges we face both now and in the future and then sets out a vision for Tendring in 2029 2024. To address these challenges and deliver the vision, the plan identifies 'strategic priorities' for achieving sustainable development and planning for economic growth, meeting the social needs of a growing population and protecting the places that make Tendring an attractive place to live, work and visit.	To reflect the proposed major change to the Local Plan period from 2011-2021 to 2014-2029 (see major change MAJ1.1).	None.
MIN1.2	Minor amendment to supporting text.	Paragraph 1.7 on page 12.	1.7 The Council has developed and refined the content of this Local Plan over a number of years having prepared and gathered a substantial amount of technical evidence, working in partnership with other bodies and organisations and having undertaken extensive public consultation. The initial preparation of the plan between 2007 and 2011 was undertaken in line with the relevant planning regulations and national planning policies that were in place at that time. They required Councils to prepare a 'Local Development Framework' (LDF) containing a series of planning documents that, together, would form the plan for the area. However, following the government's introduction of the new National Planning Policy Framework and revisions to the planning regulations in 2012, the Council has chosen to proceed with a single 'Local Plan' in line with current requirements. The main stages that were involved in preparing the Local Plan are explained in more detail below:	To ensure that when the Local Plan is finally adopted it refers, in the past tense, to the process that was undertaken. The text reflecting the main stages involved in preparing the Local Plan will need to be amended in the future.	None.
MIN1.3	Consequential deletion of supporting text.	Paragraph 1.8 on page 12.	1.8 The main stages of preparing the plan are explained in more detail below, including those stages that have already been undertaken and the future stages that the plan will need to go through before it can be formally adopted by the Council:	To ensure that when the Local Plan is finally adopted it refers, in the past tense, to the process that was undertaken.	None.
MIN1.4	Consequential changes to be made on final adoption of the Local Plan.	Stages 1-8 of 'Preparing the Local Plan'.	Note: This section will be updated on final adoption of the Local Plan to ensure it refers, in the past tense, to the actual process that was follows – including the final stages of examination and adoption.	To ensure that when the Local Plan is finally adopted it refers, in the past tense, to the process that was undertaken.	None.

Change reference	Type of change	Section	Proposed change (additions shown as highlighted and deletions shown as struck through)	Reason for change	Necessary consequential changes
MIN1.5	Minor amendment to supporting text.	Paragraph 1.9 on page 15.	<p>1.9 For the Local Plan to be fit for purpose, it neededs to be consistent with a wide range of other policies, guidance, strategies and plans that have had been produced not only by the Council but also by central government, neighbouring authorities and other public bodies. Through the Localism Act there is also now a legal 'duty to cooperate' with other organisations and neighbouring authorities in the preparation of Local Plans. The following section identifies other policies, guidance, strategies and plans that have informed the content of this Local Plan along with the key national and local partnerships that will be involved in delivering of positive changes in the area over the 10-year plan period.</p>	To ensure that when the Local Plan is finally adopted it refers, in the past tense, to the process that was undertaken and to reflect the major proposed change in the time horizon of the Local Plan from 2011-2021 to 2014-2029 (see major change MAJ1.1).	None.
MIN1.6	Deletion of supporting text.	Section on 'Local Plan Theme Groups' on pages 17 and 18.	<p>Local Plan Theme Groups</p> <p>To ensure relevant organisations and partners were involved in the preparation of the Core Strategy from an early stage (with a view to avoiding any major problems arising in later stages of consultation and examination), officers of the Council set up a series off 'Theme Groups' in 2007 containing representatives of different services within the Council and other organisations with an interest in the development plan and covering different disciplines. The Theme Groups initially covered the following topics:</p> <ul style="list-style-type: none"> ● Housing; ● Employment & Regeneration; ● Infrastructure; ● Environment; and ● Transport. <p>The purpose of the Theme Groups, which have tended to meet every 6-8 weeks or less frequent (depending on workloads), was to:</p> <ul style="list-style-type: none"> ● scope the issues facing the district from different 	This section is now considered unnecessary as the final adopted version of the Local Plan will contain an updated version of the 'Preparing the Local Plan' section which will refer, in the past tense, to the process that was undertaken. The Council will also submit detailed evidence to the Planning Inspector to explain how it has worked with other partners and fulfilled the 'Duty to Co-operate' so a section in the Local Plan itself is no longer considered necessary.	None.

Minor Changes to Chapter 2: Delivering Sustainable Development

MIN2.1	Minor consequential amendment to supporting text.	Paragraph 2.4 on page 30.	2.4 All of the policies and proposals in this Local Plan have been written to contribute toward delivering both the vision for the future and achieving sustainable development in line with the statement above. The Implementation and Monitoring Chapter (Chapter 13) of this Local Plan explains how the Council will monitor development in the district over the 10-year throughout the plan period to ensure that sustainable development is being achieved.	To reflect the proposed major change to the Local Plan period from 2011-2021 to 2014-2029 (see major change MAJ1.1).	None.
MIN2.2	Minor consequential amendment to supporting text.	Paragraph 2.5 on page 30.	2.5 To ensure a sustainable pattern of growth in the district, the 'spatial strategy' of this Local Plan sets out the overall approach for delivering new jobs and housing between 2014 2014 and 2029 2024, along with the necessary infrastructure and community facilities needed to support that growth. The strategy for future growth in Tendring aims to deliver around 4,000 6,345 new homes and 5,000 new jobs opportunities by and a 6% increase in housing stock across all the district's settlements (which equates to approximately 4,000 new homes) within the 10-year plan period. None.
MIN2.3	Minor consequential amendment to supporting text.	Paragraph 2.9 (relating to Policy SD2: 'Urban Settlements') on page 31.	2.9 For Tendring, the settlements that fall within this category are the un-parished area of Clacton-on-Sea (which is further divided into five sub-areas); Harwich and Dovercourt; Frinton, Walton and Kirby Cross; Manningtree, Lawford and Mistley; and Brightlingsea; and the eastern 'fringe' of Colchester. To deliver economic growth in each of these areas, this Local Plan contains proposals for new employment sites, proposals for investment and rejuvenation in town centres and deprived neighbourhoods and improvements to the infrastructure serving some of these areas that will be funded, in part, through developer contributions secured through the Community Infrastructure Levy (CIL).	To reflect the proposed change to Policy SD2 to include the Colchester Fringe as an Urban Settlement (see major change MAJ2.3).	None.
MIN2.4	Minor consequential amendment to supporting text.	Paragraph 2.10 (relating to Policy SD2: 'Urban Settlements') on page 31.	2.10 In applying a sustainable, fair and proportionate approach to the distribution of housing growth, each of the urban settlements will accommodate a standard 6% the largest proportion of the district's increase in housing stock over the first 10 years of the plan period between 1st April 2014 2014 and 31st March 2024 2024, as set out in Policy	To reflect the proposed major change to Policy SD2 (see major change MAJ2.3) which places more emphasis on the sustainable, fair and proportionate approach to	None.

MIN2.5	Minor consequential amendment to supporting text.	Paragraph 2.11 (relating to Policy SD2: 'Urban Settlements') on page 31.	2.11 Outside of the Tendring District, neighbouring Colchester will be the focus for significant growth in new housing and commercial development over the first 10 years of the plan period as already planned for, by Colchester Borough Council, in its adopted Local Development Framework. During previous public consultation exercises, there were a number of suggestions that a large proportion of Tendring's future economic and housing growth should be focused on the eastern fringes edge of Colchester to benefit from its greater range of job opportunities, better road connections and general hospital facilities. In the short to medium term, major development in that location is not likely to be deliverable. Given the scale of growth that Colchester is already planning for (including some 8,000 homes — an 11% increase in housing stock) and the significant up-front investment in infrastructure that would be needed to support such a strategy, it is not considered appropriate or sustainable to add further development to within this plan period.	To reflect the proposed major change to Policy SD2 (see major change MAJ2.3) to accurately reflect the Council's position with regard to growth on the eastern edge of Colchester and the proposed major change to the Local Plan period from 2011-2021 to 2014-2029 (see major change MAJ1.1).	None.
MIN2.6	Minor consequential amendment to supporting text.	Paragraph 2.12 (relating to Policy SD2: 'Urban Settlements') on pages 31 and 32.	2.12 For the period after 2021, there may be justification for further growth in the Colchester area in the longer term, especially in the period after 2024, which could require joint working between Colchester Borough Council and Tendring District Council to explore the possibility (and practicality) of planning for growth that crosses the district border. This will be the subject of careful consideration when both Councils come to review their plans to address longer-term requirements. Clacton and Harwich are also identified as 'broad areas' where longer-term growth is likely to be considered through a review of the Local Plan particularly if further development can be shown to support economic growth and deliver new infrastructure and good quality housing. For this plan period, the Colchester Fringe is tightly contained within its own Settlement Development Boundary	To reflect the proposed major change to Policy SD2 (see major change MAJ2.3) to accurately reflect the Council's position with regard to the eastern edge of Colchester and the proposed change to the Local Plan period from 2011-2021 to 2014-2029 (see major change MAJ1.1). Paragraph 2.13 (relating to Policy SD2: 'Urban Settlements') on page 32.	<p>2.13 To achieve a 6% sustainable increase in housing stock for each of Tendring's urban settlements up to 2024, a significant number of new homes have either already been built in the 2011/12 financial year or will come forward on sites that, on 1st April 2013, already had outstanding planning permission for housing development. The remaining requirement will be delivered on sites that are specifically allocated for housing or mixed-use development, supplemented by other suitable sites within the Settlement Development Boundaries in this Local Plan. These allocated sites either lie within the established built-up area of the settlement or involve undeveloped land on the edge of the settlement and, where necessary, will be the subject of detailed policies in this plan aimed at achieving the appropriate mix of housing and other uses, the appropriate development density and a high quality of design and layout along with any specific infrastructure requirements. Alongside the planned developments, it is likely that a number of currently unidentified 'windfall' sites will obtain planning permission for housing in accordance with the policies in this Local Plan during the plan period.</p>	To reflect the current financial year (2013-14) and to address some objections to a lack of the mention of windfall sites within Settlement Development Boundaries and the role they could play in supporting housing growth in the district. MIN2.8	Minor consequential amendment to supporting text.	Paragraph 2.15 (relating to Policy SD3: 'Key Rural Service Centres') on page 33.	<p>2.15 For Tendring, seven villages are classed as 'Key Rural Service Centres'. MIN2.9	Minor consequential amendment to supporting text.	Paragraph 2.20 (relating to Policy SD4: 'Smaller Rural Settlements') on page 34.	2.20 Consultation with Parish Councils and local people who live in these areas has indicated that there would be support for small clusters of new residential properties abutting existing settlements as long as they integrate well with the surrounding village. Therefore in applying a sustainable, fair and proportionate approach to the distribution of housing growth throughout the whole district, each of these smaller rural settlements will be allowed to achieve small scale a 6% increases in housing stock over the plan period 10-year period between 1 st April 2014 2014 and to 31 st March 2024 2029. MIN2.10	Minor consequential amendment to supporting text.	Paragraph 2.21 (relating to Policy SD4: 'Smaller Rural Settlements') on page 34.	2.21 To allow for this to happen, Settlement Development Boundaries (see Policy SD5 below) have been drawn flexibly, where practical, to accommodate a range of sensible sites both within and on the edge of the village and thus enable them to be considered for small-scale residential 'infill' developments of up to, but no more, than 10 dwellings in any single location. To ensure these smaller villages do not become over developed, proposals for housing development will only be approved up to the point that the 6% increase in housing stock would be achieved; i.e. any proposal for housing development that would lead to the 6% housing stock increase for that settlement being exceeded before 31 st March 2021 (taking other unimplemented planning permissions into account) Larger developments will not be permitted unless there is local support from the Town or Parish Council, an approved Neighbourhood Plan that advocates additional growth or an identified local need for affordable housing that could be addressed through a 'rural exception site' (see Policy PEO11). In some of the villages, larger development opportunities have been included where consultation with Town and Parish Councils and local people have identified opportunities for larger developments that would deliver specific local facilities or benefits. MIN2.11	Minor consequential amendment to supporting text.	Paragraph 2.22 (relating to Policy SD4: 'Smaller Rural Settlements') on page 34.	2.22 If Town or Parish Councils wish to supplement the policies and proposals in this Local Plan to specify how development should be distributed across the settlements in their parish or identify specific sites in their villages that could be developed to meet the 6% increase in housing stock, they have the option of preparing their own Neighbourhood Plan. Neighbourhood Plans can also be used to allow additional development, ensure that any new development meets additional locally-specific design requirements or helps deliver additional local benefits. Generally, any development that fails to demonstrate that the provision of transport types in the policy's hierarchy of transport modes has been given full consideration will not be acceptable. MIN3.1	Minor consequential amendment to supporting text.	Paragraph 3.10 (relating to Policy PRO1: 'Improving the Strategic Transport Network') on page 44.	3.10 The upgrade of the A120 is a requirement of the proposed container port expansion at Bathside Bay (see Policy PRO12). Although the port expansion is not expected to take place until after 2021, the Council will work with the Highways Agency and other partners over the 40-year plan period to investigate ways of funding and delivering possible early improvements, and resisting any development proposals in the vicinity of the A120 that could jeopardise its future upgrading, widening or re-routing – the details of which are yet to be finalised. MIN3.2	Inclusion of supporting text (as a consequence of a proposed change to a policy).	Paragraph 3.10a (new text to be inserted between paragraphs 3.10 and 3.11 on pages 44 and 45).	3.10a The road links between the north and the south of the district are one of the main planning challenges affecting the area. The creation of a link between the A120 and the A133 has been an aspiration of the Council for many years but in planning to meet objectively assessed needs for growth for the longer-term, there is the potential for it become reality. Both Tendring District Council and Colchester Borough Council recognise the opportunity for economic growth, in West Tendring/Colchester Fringe around the University of Essex. This would require a link road from the A120 to the A133. Therefore the Council will work with Essex County Council, Colchester Borough Council, the Highways Agency, the University of Essex and the Local Enterprise Partnership to explore this proposal in more detail during this Local Plan period.	To provide text in support of the proposed addition of a transport project to Policy PRO1 (see major change MAJ3.2) – a link road between the A120 and A133.	None.

In particular, the Council will support appropriate proposals for:	To take on board a suggestion from an objector that the wording needed to be improved.	None.
MIN3.12	Consequential amendment to supporting text.	Paragraph 3.42 (relating to Policy PRO9: 'Holiday Parks') on page 56.	3.42 The holiday occupation period in Tendring covers 10½ months of the year because the accommodation is often unsuitable for permanent occupation, and the loss of holiday accommodation to permanent residential use displaces accommodation intended for tourism use, which has a knock-on effect on the district's economy. Additionally, most of the district's holiday accommodation is located in areas that are vulnerable to flooding and that often lack the necessary and appropriate infrastructure and services for longer occupation. The Council will therefore use planning conditions/legal agreements to ensure that this does not occur and in order for a site to comply with its license, the site owner/operator will be expected to share the responsibility of managing and enforcing this requirement the occupation of tourist accommodation is restricted a certain period of time within any one year as set out in the policy below. Where sites are located in an area vulnerable to flooding, the period of restricted occupancy will be expected to take place during the winter months when there is a greater likelihood of higher tides and severe weather.		
MIN3.13	Minor factual amendment to supporting text.	Paragraph 3.44 (relating to Policy PRO11: 'Harwich International Port') on page 58.	3.44 The Tendring District is the home to a number of ports, the largest and most significant of which is Harwich International which operates ferry services between Harwich and the Hook of Holland and Esjberg, cruise ships and facilities for the transportation of container freight. In 2006, a planning application by Hutchinson Ports (UK) Ltd for Container Port at Bathside Bay was granted a 10-year planning permission; subsequent applications to extend the time period of the planning permission were granted in 2014 February 2013.	To ensure the paragraph refers correctly to when the extension of time for this planning permission was granted.	None.
MIN3.14	Minor consequential amendment to supporting text.	Paragraph 3.46 (relating to Policy PRO11: 'Harwich International Port') on page 58.	3.46 The Council fully supports the proposal but, due to a number of economic factors, does not realistically expect the development to commence until the last part at least the end of the Local Plan period in 2024. However, For this plan period therefore, the Council will aim to ensure that port expansion in the longer-term is not jeopardised by planning decisions in the shorter-term, and will work closely with Hutchinson Ports, the Highways Agency and other relevant partners to investigate possible ways of facilitating the development as early as possible for the benefits of the Tendring economy. MIN3.16	Minor consequential amendment to supporting text.	page 59. Paragraph 3.57 (relating to Policy PRO14: 'Employment Sites') on page 61.	3.57 The Council's 2013 Employment Land Review Study suggests that during the 40-year plan period only very limited growth in the demand for industrial and warehousing land is expected and, in some areas, there might actually be a decline. However, adopting a flexible approach enables the Council to secure inward investment in these sectors if economic conditions change or even allows companies to relocate to more suitable premises in order to expand. This Local Plan therefore identifies additional areas of land on the Policies Map and Policies Map Insets for the expansion of existing employment sites or creation of new sites. Land within these areas will also be promoted for B1(b & c), B2 and B8 use or other appropriate forms of employment and, as with existing established sites, will be protected against development for non-employment related uses.	To reflect the proposed major change to the Local Plan period from 2011-2021 to 2014-2029 (see major change MAJ1.1) and to refer to the latest Employment Land Review.	None.
MIN3.17	Minor amendment to supporting text.	Paragraph 3.58 (relating to Policy PRO14: 'Employment Sites') on pages 61 and 62.	3.58 Outside of the district's main established and allocated employment sites, there are also a number of smaller premises from which businesses in use classes B1(b & c), B2 and B8 operate that also provide valuable local employment. Although they are not specifically identified as employment sites in the Local Plan, the Council will protect them from a permanent loss to non-employment related use such as housing. However, the Council may exceptionally allow redevelopment for residential use if it can be demonstrated, to the Council's satisfaction, that the land or premises in question are no longer economically viable for B1 (b & c), B2, B8 or any alternative permanent employment use that might be permitted, or are inherently unsuitable for such uses, having considered the requirements of other policies in the Local Plan. Proposals for the expansion of these smaller, individual premises in employment use that are located within the district's defined Settlement Development Boundaries will generally be supported by the Council, subject to consideration against other policies in the plan. Outside Settlement Development Boundaries, the Council will only support proposals that satisfy the requirements of Policy SD5 (and other policies in the plan).	To clarify the difference in approach to proposals to expand employment sites within Settlement Development Boundaries and outside of Settlement Development Boundaries.	None.

MIN3.18	Minor amendment to policy wording.	Policy PRO14: 'Employment Sites' on page 62 (third paragraph).	For sites or premises in B1 (b & c), B2 or B8 use (or last used for those purposes), but not specifically identified as an employment site in the Local Plan, the redevelopment or change of use to residential will only be permitted if the applicant can demonstrate, with evidence, that the site or premises are no longer economically viable; that they are inherently unsuitable for any form of alternative permanent employment use that might be permitted in accordance with the policies in this Local Plan; or that the employment activity will be relocated to one of the district's identified employment sites so it can expand. The approach to use to demonstrate that the requirements of this policy have been met may vary from site to site and so must be agreed between the Council and the applicant in advance of any planning application being submitted.	To clarify that the application will have to agree, with the Council, what evidence is needed to justify the redevelopment of employment premises for residential use.	None.

MIN4.1	Minor amendment to supporting text.	Paragraph 4.14 (relating to Policy PEO4: 'Standards for New Housing') on page 68.	4.14 The Council fully supports the concept of Lifetime Homes and although the government is looking to make the Lifetime Homes Design Criteria a mandatory requirement of the national building regulations from 2013, the Council will expect all proposals for residential development in the Tendring District to apply these criteria in advance of them becoming mandatory. More guidance on these standards is available on the Lifetimes Homes website: www.lifetimehomes.org.uk . MIN4.2	Minor consequential amendment to supporting text.	Paragraph 4.15 (relating to Policy PEO4: 'Standards for New Housing') on pages 68 and 69.	4.15 Research carried out for the Greater London Authority in 2006 indicates that the levels of space in the home in England are generally lower than those found in other European countries and this is having a detrimental affect on living standards and psychological health. More recently, a 2009 report for CABE entitled 'Resident Satisfaction with Space in the Home' concluded that new housing does not consistently provide adequate space for residents to go about their everyday lives in comfort, including sufficient space for storing possessions and maintaining a tidy home and having enough room for families and guests to eat and socialise together. This research has resurrected calls to have minimum rooms dimensions like the famous 'Parker Morris' standards from 1961. This Council supports minimum internal floor space standards and Policy PEO4 sets out the Council's requirements for all types and tenure of residential accommodation, which are based on standards published in the 'London Housing Design Guide' which are compatible with the Lifetime Homes Design Criteria by English Partnerships in 2007. The requirements for private amenity space are in addition to the requirements for public open space set out in Policy PEO23. Policy PEO4 below also sets out car parking standards for housing which override the Essex County Council standards (although for non-residential development the Essex County Council standards will apply).		
MIN4.4	Minor consequential amendment to supporting text.	Paragraph 4.18 (relating to Policy PEO5: 'Housing Layout in Tendring') on page 71.	4.18 Due to the lack of available brownfield land and the preference for more spacious properties with larger gardens, the Council has no choice but to promote the expansion of towns and villages onto greenfield land to deliver the district's future housing requirements. Therefore the Council will encourage developers to apply the principles of Garden Cities apply to when planning housing layouts on new greenfield allocations. However, rather than allowing high-density housing estates that have dominated housing provision over the last forty years which are characterised by cul-de-sacs, narrow highways and an increasing over-dominance of on-street car parking, this Council wants to embrace the principles of the Garden City movement as a means of bringing about social and economic improvements in the district. The Council will therefore only support large scale housing developments if they are well designed, integrated with the existing environment and contribute positively towards the 'sense of place'. meet the requirements of Policy PEO5 which will achieve lower densities, 'Arcadian' or 'Boulevard' street pattern with wide streets, generous levels of vegetation, attractive open spaces with ample off-street car parking and private amenity space, as required by the standards set out in Policy PEO4 above. MIN4.6	Deletion of supporting text.	Paragraph 4.26 (relating to Policy PEO7: 'Housing Choice') on page 73.	4.26 For Tendring, one of the critical factors that will influence the size and type of new housing built in our district in the future will be the Council's strategic priorities for economic growth. The size, type and quality of new housing built in the district will have a significant bearing on the Council's ability to deliver new job opportunities in the area and reverse the decline and deprivation that has affected certain areas. Simply continuing to build new homes in response to market demand raises significant concerns about Tendring's long-term future and local residents fear that building 'more of the same' will only succeed in exacerbating social and economic problems.	To remove a statement that is not adequately justified by technical evidence.	None.
MIN4.7	Deletion of and amendment to supporting text.	Paragraph 4.27 (relating to Policy PEO7: 'Housing Choice') on page 73.	4.27 For this reason, this Local Plan contains policies designed to influence the mix of new housing in the district to better meet the needs and aspirations of the district whilst recognising that developers should have a degree of freedom to respond to demand in a free market economy. For certain sites allocated for residential or mixed use development, there are specific policies contained in the relevant 'Area Chapters' of this plan with strict requirements for the mix of housing in recognition of certain local factors and local concerns. Elsewhere, for the majority of sites the, The Council will use the policies in this Chapter to achieve a broad choice of housing type, size and tenure and achieve a gradual shift away from building small high-density properties toward delivering lower density, higher quality and more family-friendly homes. These policies will also help to ensure that more affordable housing is managed by the Council rather than Housing Associations and, wherever possible, that the needs of local residents take priority over the needs of in-comers into the district.	To reflect the proposed major changes to Policy PEO7 (see major change MAJ4.6) and other changes to the plan which will ensure a more consistent approach to housing mix across the district. Paragraph 4.31 (relating to Policy PEO8: 'Aspirational Housing') on page 47.	4.31 Being a district that is predominantly rural in character, lower density housing development is generally more in keeping with the fabric of Tendring's towns and villages. In addition, the Council's Strategic Housing Market Assessment suggests that around one fifth of the demand for housing for purchase on the open market is for larger dwellings of 4 or more bedrooms and that the proportion of larger properties in the higher Council Tax bands in Tendring is much lower than the regional average.	To reflect the proposed major changes to Policy PEO8 (see major change MAJ4.7) which applies aspirational housing standards to all sizes of dwelling, not just dwellings with 4 or more bedrooms.	None.
MIN4.10	Minor consequential amendment to supporting text.	Paragraph 4.32 (relating to Policy PEO8: 'Aspirational Housing') on pages 74 and 75.	4.32 The strategic priorities of this Local Plan focus heavily on the need to deliver economic growth, tackle unemployment and deprivation and improve the long-term prospects of future generations. Alongside measures to attract businesses, rejuvenate town centres and create more jobs, delivering the right mix of housing is critical to achieve all of these objectives. Using the Department of Communities and Local Government (CLG) 'needs assessment model' which calculates the total need for affordable housing to address all existing affordability problems and cater for future need, it is estimated that as many as 2,419 new affordable homes are needed every year over the plan period – a level of development that is not physically achievable. However this model assumes that no household should be expected to spend any more than 30% of gross household income on housing when, in reality, many do. Extensive public consultation with our residents suggests that the concept of affordable housing is supported, especially to give younger people a fair chance to live and work in the area. However, there is a concern that if this housing is not properly managed and there are no strict controls on who can and cannot qualify, it could encourage people from outside of Tendring to move to the area for affordable accommodation, placing people with long-standing local connections at a disadvantage. MIN4.17	Minor amendment to supporting text.	Paragraph 4.45 (relating to Policy PEO10: 'Council Housing') on page 78.	4.45 Because Council Housing needs to be made available at discounted rents for it to be affordable for people and families with lower incomes, developers will be required to make property available at a discounted value (between 65% and 80% of market value) for the Council to purchase. To ensure that developers can budget for this discount and still be in a position to pay their Community Infrastructure Levy (CIL) requirement, deliver high-quality housing, achieve a reasonable profit and compete in the market for land, the Council's expectations have to be realistic – particularly given the fragile state of the housing market and the expectation that the recovery over the 10-year plan period will be slow	To clarify the likely rates of discount the Council will expect to acquire dwellings for use as Council Housing and to reflect the proposed major change to the Local Plan period from 2011-2021 to 2014-2029 (see major change MAJ1.1). MIN4.18	Minor consequential amendment to supporting text.	Paragraph 4.48 (relating to Policy PEO10: 'Council Housing') on page 78.	4.48 This flexible approach to delivering Council Housing is considered to be fair, realistic and affordable for both the Council and the development industry and an effective means of delivering a meaningful level of affordable accommodation, to cater for the needs of local people as a priority, as requested by local people during public consultation. It is expected that this approach could deliver up to 700 between 400 and 1,000 affordable homes over the 40-year plan period.	To reflect the proposed major change to the Local Plan period from 2011-2021 to 2014-2029 (see major change MAJ1.1) and the revised target of 5,625 homes (see major change MAJ4.2) of which 4,095 are likely to be on large sites affected by Policy PEO10. MIN4.19	Minor amendment to supporting text.	Paragraph 4.51 (relating to Policy PEO10: 'Council Housing') on page 79.	4.51 The detailed mechanism for securing Council Housing through Policy PEO10 will be set out in the Council's separate document entitled 'Planning Obligations and Developer Contributions'. More specific guidance on the provision of Council Housing as part of development on specific sites allocated for residential and mixed-use development in this Local Plan is included in the relevant 'Area Chapters'.	To reflect the fact that none of the policies in the Area Chapters (as proposed for revision) require a different approach to the provision of Council Housing.	None.
MIN4.20	Minor amendment to policy wording.	Policy PEO10: 'Council Housing' on page 79 (first paragraph).	To promote a mix of housing tenure in the district and address the housing needs of people and families with lower incomes who cannot afford to buy or rent housing on the open market, the Council will work with the development industry to provide new 'Council Housing' which will be managed and controlled by Tendring District Council either on its own or in partnership with other Registered Providers.	To clarify that Registered Providers can still play a role in the provision of Council Housing in the district.	None.
MIN4.21	Minor amendment to policy wording.	Policy PEO10: 'Council Housing' on page 79 (second paragraph). MIN4.23	Minor amendment to policy wording.	Policy PEO10: 'Council Housing' on page 79 (fourth paragraph).	To avoid an over-concentration of Council Housing in one location, no single group of adjacent Council Houses will exceed 6 dwellings and to ensure positive integration between the residents of Council Housing and market housing, there should be no noticeable difference in the appearance or quality between dwellings to be sold on the open market and those to be acquired and managed by the Council or its nominated partner(s).	To clarify that Registered Providers can still play a role in the provision of Council Housing in the district.	None.
MIN4.24	Minor amendment to supporting text.	Paragraph 4.52 (relating to Policy PEO11: 'Rural Exception Sites') on page 80.	4.52 To enable the delivery of affordable housing in rural areas, the 'Rural Exception Scheme' allows small developments on a site which abuts or is well-related to the Settlement Development Boundary of a Key Rural Service Centre or Smaller Rural Settlement abutting villages to come forward as an exception to normal settlement policy. Such schemes are intended to meet the housing needs of local people unable to afford accommodation in the villages where they live or have close local family or employment ties. The rural exception policy PEO11 will be particularly useful in delivering additional housing in rural settlements where only limited growth is proposed and where the requirements of the Council Housing Policy PEO10 is not likely to deliver a significant number of affordable homes. Where Parishes have identified a need for local housing in an area, it can still be difficult to encourage landowners to sell their land below open market residential values. To address this, there should be a provision for a maximum of one open market home in three homes on sites put forward by the Parish Council or through the Community Right to Build.	To clarify what settlements the Rural Exception Scheme applies to and to reflect the proposed major change to Policy PEO11 (see major change MAJ4.8) designed to bring the policy more in line with current national policy. MIN4.26	Minor consequential amendment to supporting text.	Paragraph 4.72 (relating to Policy PEO15: 'Traveller Sites') on page 85.	4.72 The Council has a legal duty to address the accommodation needs of travellers and the government's national planning policy on travellers requires Councils to identify sites where travellers will be allowed to set up pitches. The Essex Gypsy and Traveller Accommodation Assessment (GTAA) (November 2009) is the principle source of evidence providing a forecast of the expected future need. This assessment suggests suggested that the Tendring District will need to have 10 authorised pitches in total by 2021. On 1 st April 2013, there were already 11 authorised pitches in the district ensuring this requirement had been fulfilled. At the time of writing, Essex authorities were in the process of commissioning an update to the Gypsy and Traveller Accommodation Assessment to ensure the evidence was up to date and met the requirements of national policy. This evidence will determine whether any additional pitches are likely to be needed in the longer term. MIN4.27	Deletion of supporting text.	Paragraph 4.73 (relating to Policy PEO15: 'Traveller Sites') on page 85.	4.73 In 2009, the Council commissioned consultants to undertake a Gypsy and Traveller Site Study to identify appropriate locations and potential sites to meet this requirement. The study identified that there were already six authorised traveller pitches in the district, so based on the findings of the GTAA, there is a requirement for four additional pitches to be authorised before 31st March 2021. MIN4.28	Deletion of supporting text.	Paragraph 4.74 (relating to Policy PEO15: 'Traveller Sites') on page 85.	4.74 The study also identified three unauthorised traveller pitches on land at Woodfield Bungalow, south of the A133 (Colchester Road) within the Parish of Great Bentley, which may have been in existence in excess of 15 years. The study recommends that these three pitches could be given legal status through either the grant of planning permission or a lawful use certificate which would then further reduce the residual requirement for authorised pitches to just one before 2021. Paragraph 4.76 (relating to Policy PEO15: 'Traveller Sites') on page 85.	4.76 Having considered these options, the Council has chosen to allocate land at Woodfield Bungalow as a traveller site to accommodate four pitches, comprising the three existing unauthorised pitches and sufficient land to allow a fourth. Consequently, any proposals for permanent traveller pitches outside of this allocated site will not be permitted before 31st March 2021, by which time the Council may have reviewed the Local Plan to take into account any longer-term requirements. Areas of existing green infrastructure that will be protected from development are shown as 'Local Green Spaces' on the Policies Map and relevant Policies Map Insets for each area and will be protected for the full length of the plan period or how ever long this Local Plan remains in force. Development on these sites will only be allowed where it will result in an equivalent or larger area of green infrastructure of equal or better quality being provided in a location that will benefit more residents. MIN5.6	Minor consequential amendment to supporting text.	Paragraph 5.13 (relating to Policy PLA2: 'Coastal Protection') on page 102.	5.13 Because this Local Plan only provides planning policies and proposals for the period up to 2024 2029 with the intention that the plan be reviewed before 2024, the strategy for the first time period in the Draft Shoreline Management Plan, which proposes to 'hold the line' along every stretch of the Tendring coast applies. The National Planning Policy Framework encourages Local Plans to identify 'Coastal Change Management Areas' to avoid inappropriate development in vulnerable coastal areas where there are areas likely to be affected by physical changes to the coast. However, given that the strategy is to 'hold the line' along Tendring's coastline, the Council does not consider it appropriate for this Local Plan to identify specific 'Coastal Change Management Areas' as no physical changes are proposed during this plan period. However, the Local Plan does identify a 'Coastal Protection Belt'.	To reflect the proposed major change to the Local Plan period from 2011-2021 to 2014-2029 (see major change MAJ1.1).	None.

The Council will work with its partners to minimise the polluting impact that new development has on groundwater, watercourses and rivers. The Council will also seek to enhance biodiversity and the environment by providing at-surface SuDs solutions which promote habitats for wildlife and opportunities for biodiversity enrichment. Where a site is likely to contain important wildlife habitats, protected species (as protected in the 1981 Wildlife and Countryside Act, as amended) or important features identified in the UK or Essex Biodiversity Action Plans (BAP), developers will be required to undertake a survey having regard to the Conservation of Habitats and Species Regulations 2010. Where development is likely to harm the nature conservation interest of a site, planning permission will only be granted where the benefits of the development outweigh the harm caused. In such instances, negative impacts on biodiversity should be avoided, mitigated, or as a last resort, compensated for. In mitigating such impacts, development should must minimise the impact on biodiversity and, where possible, seeks to retain or replace key features like important trees, hedges or water features. Compensation for impacts on non statutorily designated sites (if deemed appropriate) should be managed through a mechanism such as biodiversity offsetting. MIN5.19	Addition to supporting text.	Paragraph 5.38 (relating to Policy PLA6: 'The Historic Environment') on page 108.	<p>5.38 In 2008, Essex County Council undertook the 'Tendring Historic Characterisation Project' which provides a comprehensive account of the character of the district's historic environment and the heritage assets that contribute towards that character and which should, where possible, be preserved, enhanced or even incorporated into new development for the enjoyment of future generations. This study, together with other relevant historic records, forms part of the Essex Historic Environment Record, which should be used when seeking to understand the significance of a heritage asset, the impact a proposal may have on this and to inform the appropriate strategy for the conservation of a heritage asset.</p>	To address comments from Essex County Council.	None.
MIN5.20	Consequential amendment to supporting text.	Paragraph 5.39 (relating to Policy PLA6: 'The Historic Environment') on page 108.	<p>5.39 Some heritage assets, such as Listed Buildings and Scheduled Monuments are afforded statutory protection and the government's planning policy contained in the National Planning Policy Framework provides the principal planning framework for dealing with planning issues affecting historic structures and archaeological interests. The historic centres of Harwich, Manningtree and St. Osyth (which are defined on the Policies Map) are sensitive to development pressures in much the same way as is the ecology of an environmentally important area. Within these areas, there is a greater likelihood of archaeological remains due to their complex histories and development of their communities over many centuries. Within these areas, the Council will expect proposals for development (where relevant and appropriate) to be accompanied by an investigation and recording of both deposits below and surviving medieval buildings above it in order to prevent the irreparable destruction of unique information concerning that community's past.</p>	To address the objections from residents of St. Osyth requesting the reinstatement of the 'Historic Towns' designation in the Local Plan (see major change MAJ5.1 and Policies Map Changes PM2a.2, PM4.2 and PM11.2). MIN5.21	Minor amendment to supporting text.	Paragraph 5.40 (relating to Policy PLA6: 'The Historic Environment') on page 108.	5.40 This Local Plan elaborates on the requirements already set out in the National Planning Policy Framework and seeks to protect or enhance the district's historic assets but also make best use of its rich heritage to help promote the district as a visitor destination and an attractive place to live and work. The most appropriate strategy for conservation will vary between each heritage asset and will depend on a range of factors including the asset's significance. The Council will work with its partners to devise a Conservation/Heritage Strategy which will set out the Council's approach to address conservation in the district when opportunities arise to review the future management and conservation of the district's heritage assets.	To better reflect the guidance in the National Planning Policy Framework.	None.
MIN5.22	Minor amendment to supporting text.	Paragraph 5.42 (relating to Policy PLA7: 'Conservation Areas') on page 110.	5.42 Policy PLA7 provides criteria against which proposals for development both in and, in certain cases affecting the setting of, a Conservation Area will be judged. These supplement the requirements of the National Planning Policy Framework and expand upon the principles set out in Policy PLA6 which seek to protect and enhance the historic environment. It is therefore important that this policy is read carefully alongside Policy PLA6 and other relevant policies in the Local Plan.	To emphasise that the National Planning Policy Framework is a material consideration in the determination of planning applications and therefore has to be understood alongside the policy in the Local Plan.	None.
MIN5.23	Minor deletion of supporting text.	Paragraph 5.43 (relating to Policy PLA7: 'Conservation Areas') on page 110.	5.43 The designation of a Conservation Area gives the Council additional control over advertisements, the demolition of structures and the lopping and removal of trees. MIN7.10	Minor consequential amendment to supporting text.	Paragraph 7.16 (relating to employment sites) on pages 145 and 146.	7.16 In 2014 2013, manufacturing represented around 10% of all jobs in the Harwich and Dovercourt urban area, which is surprisingly low given that the district's employment land allocations are predominately located in the Clacton and Harwich areas, as the two largest centres within the district. Indeed, the main existing strategic employment sites are located in the Harwich and Dovercourt area; essentially linked with the existing port activity and the approved major port expansion at Bathside Bay.	To reflect the proposed major change to the Local Plan period from 2011-2021 to 2014-2029 (see major change MAJ1.1).	None.
MIN7.11	Minor consequential amendment to supporting text.	Paragraph 7.17 (relating to employment sites) on page 146.	7.17 According to the Council's Economic Development Strategy and Employment Land Review Employment Study , the future demand for premises to accommodate 'B-class' uses (i.e. business, industrial, storage and distribution) is most likely to be within the Harwich area, as opposed to other areas of the District, not least because of the anticipated port development of Bathside Bay and the intermediate use of the existing port as a hub for the renewable energy sector. In particular, demand for storage and warehousing uses may will increase and the Harwich and Dovercourt urban area needs to meet this demand in terms of available employment land, in close proximity to the port and the A120 as part of the strategic road network, in order to maximise the employment potential of the port and its related uses.	To reflect the fact that a new Economic Development Strategy and Employment Land Review have been produced to inform the Local Plan.	None.
MIN7.12	Minor consequential amendment to supporting text.	Paragraph 7.18 (relating to employment sites) on page 146.	7.18 The following sites are identified in purple on the Policies Maps and are safeguarded for employment use, where the provisions of Policy PRO14 in Chapter 3 of this Local Plan will apply: <ul style="list-style-type: none"> • Land East of Pond Hall Farm, Harwich (see Policy HAD4); • Telephone Exchange, Harwich; • Europa Way, Harwich; • Stanton Europark (Harwich International Park and Land to the North); and • Land to West of Station Road, Parkeston; • Former Delford Site, Main Road, Dovercourt; and • Land north of Carless Petrochem, Parkeston. MIN7.13	Minor consequential amendment to supporting text.	Paragraph 7.23 under the heading 'Green Infrastructure' on page 147.	7.23 These areas are shown on the Policies Map Insets and will be protected from development in line with Policy PEO19 in Chapter 4 of this Local Plan. For the 10-year period 2014 to 2021, the The main green infrastructure projects proposed for the area relates to the Harwich Linear Park, the valley along Ramsey Creek between Ramsey and Parkeston, which is identified within the Haven Gateway Green Infrastructure Study as a key green infrastructure project for this area. The 50 hectare country park will provide managed access to the countryside for local residents and tourists whilst also providing a green corridor for leisure activities such as walking, cycling and horse riding around the north of Harwich, linking to the 'Hangings', an existing footpath and cycleway and an important wildlife habitat in the area. MIN7.14	Minor amendment to supporting text.	Paragraph 7.28 (relating to Policy HAD4: 'Development East of Pond Hall Farm') on page 148.	7.28 The Council will work with the landowners and the Highways Agency to deliver this access; to unlock this site; to ensure any necessary improvements required to the A120 between this new access and the existing A120 junction to the east to mitigate the impacts of this development; and to secure the inward investment needed. In addition, the Council will work with the Highways Agency and Essex County Council as the Highways Authority to plan safe access to the residential element of the scheme, via the existing urban road network as opposed to the A120, to minimise local traffic and congestion on this strategic route. The development will also make a positive contribution toward the creation of the new Harwich Linear Park.	To take on board the suggestions of the Highways Agency.	None.
MIN7.15	Minor amendment to policy wording.	Policy HAD4: 'Development East of Pond Hall Farm' on page 148 (first paragraph). MIN8.1	Minor amendment to supporting text.	Paragraph 8.2 on page 151.	8.2 Frinton-on-Sea, a town by the sea with clean beaches and an attractive open greensward, has a unique town centre and surrounding residential areas with a special historic and architectural character unlike anywhere else. The town centre comprises a linear shopping street confined to Connaught Avenue and, to a lesser extent, Old Road, east of the distinctive 'Avenues'. Forming part of the Frinton and Walton Conservation Area, the town centre contains many traditional shop fronts that contribute to the special character of the area.	To incorporate a suggestion from the Frinton and Walton Heritage Trust.	None.
MIN8.2	Minor amendment to supporting text.	Paragraph 8.3 on page 151.	8.3 Walton-on-the-Naze is a smaller, more traditional, Victorian seaside resort with a range of tourist attractions highly dependent on seasonal trade. Also within the Conservation Area, the town is unique in its geography in that it has popular clean beaches to the east, the attractive backwaters to the north-west and the famous Naze cliffs to the north. Only the highest standards of quality and design will be acceptable within this area and proposals that would result in the material loss of architectural or historical detail or any other aspect that contributes to the local character of the area will be refused. When the Conservation Area is formally extended, the legal provisions that control demolition and the alterations of trees also will apply.	To reflect the proposed deletion of Policy FWK4 (see Major Change MAJ8.4 and Policies Map Change PM3a.1).	None.
MIN8.9	Minor amendment to supporting text.	Paragraph 8.30 (relating to Policy FWK5: 'The Avenues Area of Special Character, Frinton-on-Sea') on pages 158 and 159.	8.30 The Avenues to the west of Connaught Avenue shopping centre and north of the Esplanade, forms a sedate residential area of outstanding arcadian character, with wide, straight, tree and hedge lined avenues, grass verges and large, spacious detached houses set in mature gardens. This sedate residential character forms an important quality of this part of the Frinton and Walton Conservation Area and should be strictly safeguarded. If individual changes of use of large houses for example to institutional uses, private hotels or subdivision into flats or the redevelopment for higher density housing were allowed to continue to occur, it would erode the area's outstanding character and the quiet enjoyment of residents in the locality. Well designed infill development on plots at least 15 metres wide may be acceptable in some cases. Policy FWK5 below will therefore apply to the Avenues Area which is shown on the Policies Map Inset. To finance the necessary works, the Council acknowledges that some form of enabling development may be required, which should comprise an appropriate mix of uses and must be of an exceptional design in order to enhance this part of the town. However, rather than be overly prescriptive, the Council will consider innovative development proposals on their individual merits subject to the scheme ensuring that environmental objectives are not compromised. These matters and the implications of any development on flood risk and transport impacts must be carefully addressed at the planning application stage and must be informed by the necessary technical evidence, to be agreed in advance between the applicant and the Council. To ensure good access to shops, services and community facilities, avoid an over-concentration of development in Walton and minimise environmental impacts, the Council has identified land at Turpins Farm to the west of Elm Tree Avenue as the most appropriate and sustainable location for this modest development. The site is well located in relation to the Tendring Technology College, Hamford Primary School and the Triangle Shopping Centre and is in an area of relatively modern development at Turpins Farm that has taken place in various phases over the last 30 years. MIN11.11	Minor consequential amendment to supporting text.	Paragraph 11.23 (relating to Policy KEY4: 'Development at Willow's Farm, Weeley Heath') on page 188.	11.23 Consultation with Weeley Parish Council has indicated that the preferred approach to housing growth in the village should be to spread the requirement over a number of smaller sites as opposed to concentrating it one location. One proposal that was submitted for the Council's consideration was the redevelopment of land at Willow's Farm, Mill Lane for a comprehensive mixed-use development of housing, business units and open space. However it was considered that, whilst Willow's Farm would be a good location for a small development, a large comprehensive development would be out of place in its rural setting and would raise major concerns over potential traffic. Therefore, land at Willow's Farm is allocated for a smaller development of Aspirational Housing (see definition standards in Policy PEO8 PEO4) to be developed in accordance with Policy KEY4 below and the requirements of other relevant policies in this Local Plan. MIN13.2	Deletion of supporting text.	Paragraph 13.3 on page 205.	13.3 On its publication for consultation, the Proposed Submission version of the Local Plan will carry a degree of weight as a material planning consideration alongside the Council's 2007 Adopted Local Plan and the Council can choose to attach greater weight to the emerging policies where they better reflect the objectives of the Council and the requirements of national policy. Following public consultation, the Draft Local Plan will carry an even greater degree of weight because we will know which policies and proposals have received objections. Those policies with relatively few objections can carry more weight. From 27th March 2013, this Local Plan will become the principle source of local planning policy, whatever stage it has reached in its preparation. MIN13.15	Consequential amendment to supporting text.	Paragraph 2.40 (under the heading 'Reviewing the Local Plan') on page 211	<p>Reviewing the Local Plan</p> <p>2.40 13.21 This Local Plan provides policy guidance and proposals for the period up to 31st March 202429 with detailed proposals for years 1-10 and broad areas of potential growth for years 11-15. In order to plan for longer-term development requirements in more detail, particularly the need to maintain an ongoing supply of housing land in accordance with the National Planning Policy Framework, and to possibly respond to any changing economic or development trends, it is likely that the Council will need to commence an evidence-based review of the Local Plan (either in part or in full) at some point within the plan period. In doing so, the Council will address the requirements for public consultation, evidence gathering and the regulations in place at that time, taking on board the results of monitoring throughout the plan period, as explained above.</p>	To correct an error with the paragraph numbering and to reflect the proposed major change to the Local Plan period from 2011-2021 to 2014-2029 (see major change MAJ1.1 and MAJ2.1).
