

**409/14**

**REQUEST**

I write under the Freedom of Information Act for copies of food testing certificates carried out on behalf of your authority by public analysts or food testers.

More specifically, I request all copies of Certificates of Analysis or Examination carried out under the Food Safety (Sampling and Qualifications) (England) Regulations 2013 sent to your authority by public analyst or food testers since January 1, 2013.

Please note I am only interested in those related to species testing.

If you are a port health authority, please also include certificates issued in relation to port health control checks.

**RESPONSE**

This service has not submitted any samples to the public analyst in the timeframe mentioned.

There has also been no species testing as this is undertaken by Trading Standards.

We do not undertake any sampling at the port.
