

FOI 101/2018

REQUEST

Can you tell me how many security street camera's are in Tendring and how many are actually operational.

RESPONSE

Tendring District Council, not all of the cameras in the district.

The Council currently has 80 CCTV cameras in street locations.

Whilst it is impossible to ensure that all of the cameras are working all of the time, the Council does have a repair and maintenance contract in place for all CCTV cameras. When a camera develops a fault it is either repaired or replaced.
