

**FOI 113/2018**

**REQUEST**

Under the Freedom of Information Act, how much of its own resources has the Council spent on poverty prevention measures in each of the last three years?

**RESPONSE**

Unfortunately we do not have a specific figure but the reduction of poverty is something that the Council is committed to and as such it is a part of the job role of a number of officers and included in corporate objectives.

The Council has a number of work streams that will achieve a reduction in poverty.
