

**FOI 321/2016**

**REQUEST**

- 1) Does the council maintain a register of potentially contaminated land under part 2a of the Environmental Protection Act 1990?

**Yes TDC does have a contaminated land register.**

- 2) If so, is this available for inspection by the public?

**This is available for inspection by the public in the information area at Weeley Council Offices**

- 3) If yes, please can you provide all effected contaminated land areas (including location) within your local authority boundaries?

**There are no entries on the register.**

- 4) When did the council last carry out a review of this information and publish the results?

**The information is reviewed monthly, the list hasn't been updated as no change.**

- 5) When will the council be carrying out its next review of this information?

**Monthly**

- 6) Under which section within the authority does the responsibility for the maintenance of the register lie?

**Pollution and Environmental Protection**

- 7) Do you have records of any underground fuel storage tanks registered in your council?

**We have no records.**

- 8) If yes, where can this be inspected and can you provide a list and location?

**N/A**

- 9) Can you please provide any 'potential contaminated' land that you may deem to be 'contaminated land' under part 2a of the Environmental Protection act 1990 in the near future?

**N/A**

- 10) Please can you confirm that any findings in your contaminated land register is under the OGL with the ability to use in commercial reports?

**N/A**
