

No. 51

REQUEST

- Our records show that there are no entries on the Contaminated Land Register under Part IIA of the Environmental Protection Act 1990 in Tendring. Would you be able to confirm that there have been no additions to the register or remediation notices since our last recorded update on 06/06/2011?
- We would also be interested in any determinations or investigations since this date which are not currently on the official register, if you are able to provide this information.

RESPONSE

I therefore note below the answers to your two questions in the same order as in your email.

- I can confirm that there are no additions to the register or remediation notices since your last recorded update on 06/06/2011.
- None since this date.
