REQUEST

I would like to request the following information from your council under the Freedom of Information Act 2000.

- How many claims for compensation were made by staff each year between 2006-2012 (financial year or municipal year depending on how you collect data. I understand current year data may not be available)?
- Of these how many were successful, what was the highest single amount paid out, and what for?
- What is the total amount paid out each year in compensation to staff?
- If possible could reveal the nature of successful claims (either specific claims if possible, or general categorisations, if these are recorded)?
