

Tendring District Local Plan 2013-2033 and Beyond Publication Draft

Policies Map Key

*The Flood Zone shown on the maps should only be used as a guide. The Environment Agency Flood risk maps should always be used for the latest flood risk information and to distinguish between Flood Zones 2 and 3.

**Article 4 Direction for Houses in Multiple Occupation covers the whole district and therefore cannot be annotated on the maps.

It is important that the Maps and Key are read in conjunction with the Written Statement.
